### **Transportation/Site Development Engineer (E.I.T.)**

Benton & Associates, Inc. (B&A) is a consulting engineering and land surveying firm of 35+ employees serving public and private clients throughout Illinois, Missouri, and the greater Midwest. As B&A enters its 52<sup>nd</sup> year in business,, our employee-owned firm is looking to its future as it aggressively recruits both recent graduates and experienced professionals of a variety of backgrounds and skillsets.

B&A is seeking a candidate to fill a **full-time Transportation/Site Development Engineer (E.I.T.)** position located in **Jacksonville, Illinois**. The ideal candidate will have the ability to assist with the design development of a variety of infrastructure projects including roads, bridges, storm sewer collection systems, and site development. The ideal candidate will also quickly grow within B&A to become comfortable managing projects from inception through construction while continuously improving our relationships with our clients.

### **Responsibilities**

- Assist in the design development of roads, bridges, storm sewer collection systems, and site development.
- Assist in the production of construction documents utilizing MicroStation and Geopak/InRoads CADD software.
- Assist in the preparation of planning reports and infographics.
- Collaborate with all levels and disciplines within B&A to effectively complete project tasks.
- Perform engineering calculations, analysis, and product specification development under the supervision of a project manager.
- Perform construction observation and contract administration duties.
- Communicate effectively with clients, funding agencies, sub-consultants, and construction contractors.

### **Minimum Qualifications**

- B.S. in Civil Engineering with E.I.T. Certification.
- Experience with CADD software in developing infrastructure or building construction plans.
- High proficiency with Microsoft Office applications.
- Experience and comfort working in a team environment with the ability to manage multiple projects and meet various project deadlines in a fast-paced work environment.
- Strong desire to develop technical expertise in transportation/site development engineering under the guidance of experienced and successful senior engineers.

## **Ideal Qualifications**

- At least 1+ year of experience in transportation and site development engineering, including relevant internships.
- Experience utilizing MicroStation and Geopak/InRoads in infrastructure plan production.
- Field and office experience related to topographic surveys, construction staking, and production of roadway plans following IDOT policies and CADD standards.

Benton & Associates, Inc. strives to offer competitive salaries and performance incentives. Standard benefits for full-time employment include health and life insurance, short- and long-term disability insurance, flexible spending and health savings accounts, generous 401k retirement, professional development and training and flexible work scheduling. B&A's leadership recognizes the value each team member has in the firm's success and they aim to provide as much financial recognition to those contributions as possible.

Benton & Associates, Inc. is an equal opportunity employer. We are strongly committed to the recruitment, selection development, and promotion of all employees on individual merit. We continually seek to build and maintain a workforce that reflects the rich diversity of the population we serve. Our practice is to strive to provide equal employment, training, education, mentoring and advancement to all employees without regard to race, color, religion, gender, national origin, age, or disability. You are welcome to submit your resume at any time for consideration.
