Water/Wastewater Engineer (E.I.T.)

Benton & Associates, Inc. (B&A) is a consulting engineering and land surveying firm of 35+ employees serving public and private clients throughout Illinois, Missouri, and the greater Midwest. As B&A enters its 52nd year in business, our employee-owned firm is looking to its future as it aggressively recruits both recent graduates and experienced professionals of a variety of backgrounds and skillsets.

B&A is seeking a candidate to fill a **full-time Water/Wastewater Engineer (E.I.T.)** position located in **any of the following locations – Jacksonville, Illinois; Macomb, Illinois; Kirksville, MO; Macon, MO; Rolla, MO; and Lebanon, MO.** The ideal candidate will have the ability to assist with the design development of water distribution and treatment facilities, wastewater collection and treatment facilities, pump stations, and storm water detention/retention/conveyance systems. The ideal candidate will also quickly grow within B&A to become comfortable managing projects from inception through construction while continuously improving our relationships with our clients.

Responsibilities

- Assist in the design development of water, wastewater, and storm water infrastructure.
- Assist in the production of construction documents utilizing MicroStation CADD software.
- Assist in the preparation of planning reports and infographics.
- Collaborate with all levels and disciplines within B&A to effectively complete project tasks.
- Perform engineering calculations, hydraulic analysis, and product specification development under the supervision of a project manager.
- Perform construction observation and contract administration duties.
- Communicate effectively with clients, funding agencies, sub-consultants, and construction contractors.

Minimum Qualifications

- B.S. in Civil or Environmental Engineering with E.I.T. Certification.
- Experience with CADD software in developing infrastructure or building construction plans.
- High proficiency with Microsoft Office applications.
- Experience and comfort working in a team environment with the ability to manage multiple projects and meet various project deadlines in a fast-paced work environment.
- Strong desire to develop technical expertise within water/wastewater engineering under the guidance of experienced and successful senior engineers.

Ideal Qualifications

- At least 1+ year of experience water/wastewater engineering, including relevant internships.
- Experience utilizing MicroStation in infrastructure plan production.
- Field and office experience related to topographic surveys, preparing infrastructure planning reports, production of engineering plans, utilization of water and/or sewer standards, and construction observation of municipal infrastructure projects.

Benton & Associates, Inc. strives to offer competitive salaries and performance incentives. Standard benefits for full-time employment include health and life insurance, short- and long-term disability insurance, flexible spending and health savings accounts, generous 401k retirement, professional development and training and flexible work scheduling. B&A's leadership recognizes the value each team member has in the firm's success and they aim to provide as much financial recognition to those contributions as possible.

Benton & Associates, Inc. is an equal opportunity employer. We are strongly committed to the recruitment, selection development, and promotion of all employees on individual merit. We continually seek to build and maintain a workforce that reflects the rich diversity of the population we serve. Our practice is to strive to provide equal employment, training, education, mentoring and advancement to all employees without regard to race, color, religion, gender, national origin, age, or disability. You are welcome to submit your resume at any time for consideration.
