

Summer Internships

Benton & Associates, Inc. (B&A) is a consulting engineering and land surveying firm of 40+ employees serving public and private clients throughout Illinois, Missouri, and the greater Midwest. After 50+ years in business, our employee-owned firm is looking to strengthen our long-standing internship program by providing students to work and learn in a fast-paced consulting engineering environment.

Our goal is to provide our interns with applicable work experience that provides real value to our firm and our clients. Beyond project work experience, we strive to provide opportunities for students to learn about our business practices and corporate culture with the goal of finding future full-time employees and leaders of our firm. In fact, four of our current principals at one time were interns at B&A!

B&A is seeking candidates for our 2023 Summer Internship program. We accept resumes and applications from all undergraduate and graduate students with majors in **civil engineering, environmental engineering, structural engineering, mechanical engineering, electrical engineering, construction management, land surveying, G.I.S, engineering technology, biology, chemistry, and physics**. Within your application, please indicate which office location(s) would be your preference to work from.

Benton & Associates, Inc. is an equal opportunity employer. We are strongly committed to the recruitment, selection development, and promotion of all employees on individual merit. We continually seek to build and maintain a workforce that reflects the rich diversity of the population we serve. Our practice is to strive to provide equal employment, training, education, mentoring and advancement to all employees without regard to race, color, religion, gender, national origin, age, or disability. You are welcome to submit your resume at any time for consideration.
